WATERMAX SOLAR 3-PHASE PUMP SYSTEMS AHEAD OF THE PACK!

Farmers smile ... water now much cheaper ... with solar

10 December 2012

Yes, the Watermax DC solar pumps are quite amazing and with approximately 17 000 of these operating in South Africa only, it is for sure a prominent player in the solar water pumping market in South Africa as well as in the rest of the world.

But with the recent addition of the Watermax 3-phase solar pump systems, significant immediate cost savings are achieved. No more electricity, no more generators!
